# Study In Taiwan

Scholarships for CSUCA Students

# Study in Taiwan Scholarships for CSUCA Students

In 2008, the Ministry of Education (MOE), National Chiao Tung University (NCTU) and two other top universities in Taiwan jointly established a scholarship program for students of CSUCA (Consejo Superior Universitario Centroamericano) member universities, offering opportunities to study a wide range of degree programs at the graduate level as well as to learn Mandarin Chinese. The scholarship aims to promote understanding and friendship between Taiwan and the members of CSUCA in Central America.

# **Types & Amounts**

- 1. For graduate studies, a monthly stipend of NT\$25, 000 (≒US\$830). Students are exempted from tuition and credit fees during the award period:
  - PhD students: up to 3 years
  - Masters students: up to 2 years
- 2. For Chinese language studies, a monthly stipend of NT\$25,000 (≒US\$830), with study periods ranging from 3 to 10 months (one-year intensive program).

# **Programs for Fall Semester 2012**

Applicants may apply to only ONE of the following programs:

1. Degree Programs (Master's/Doctoral):

Applicants may choose to study at ONE of the following universities:

- National Chiao Tung University (www.nctu.edu.tw)
- National Chung Hsing University (www.nchu.edu.tw)
- National Yang-Ming University (www.ym.edu.tw)
- 2. Intensive Mandarin Chinese Language Program:

Applicants may enroll in the one-year intensive Mandarin Chinese Language Program (Beginner Level) provided by the NCTU Chinese Language Center: http://aadm.nctu.edu.tw/mandarin/eng/index.aspx

### Eligibility

Applicants for the scholarship program must meet all of the following criteria:

- 1. Must be full-time students or graduates of CSUCA member universities.
- 2. Must be qualified to apply as international students (see Application Instruction).
- 3. Are not currently students either at a Mandarin training center or at a university/college in Taiwan.
- 4. Are not currently recipients of a scholarship or subsidy offered by any governmental or educational institution in Taiwan.

<sup>\*</sup>Costs & Living Expenses is approx. NT\$150K  $\sim$  200K ( $\rightleftharpoons$  US\$5,000  $\sim$  6,600) per year.

## **Application Timeline and Selection Process 2012**

Step	Action Item	Date
1	Call for Applications	February 1
	Deadline of Application at CSUCA	Application Deadline:
	- Application to Chung Hsing University - NCHU	March 28
2	- Application to Yang-Ming University - NYMU	March 28
	- Application to Chiao Tung University - NCTU (Degree-Program)	April 5
	Application for Chinese Language Program - NCTU	April 15
3	Evaluation of Applications by universities	April-May
4	Notification of Acceptance by universities	Early June
	Classes Commence	Mid-September
5	Courses run for 18 weeks per semester:	
	Fall (Sep. ~ Jan.) & Spring (Feb. ~ Jun.)	

#### The process proceeds as follows:

Step 1: Announcement of the *Study in Taiwan* program to students at CSUCA member universities and call for applications.

# Step 2: Submission of Application

- (1) Each applicant can choose **up to three degree programs** under the **same college/school** from **ONE university only**; alternatively, the applicant may apply to the intensive Mandarin Chinese Language Program at National Chiao Tung University (NCTU);
- (2) The applicant fills out the application form and prepare documents;
- (3) The applicant sends the application pack (application form and all required documents) to the CSUCA office by the specified deadline.

### Step 3: Evaluation for Applications

- (1) Basic requirements of the applicants:
  - 1. Proof of English proficiency
  - 2. Outstanding records
  - 3. Strong recommendation for academic and/or research excellence
- (2) Applications are received at CSUCA by the above mentioned deadline. CSUCA selects and recommends up to 30 degree program applicants and 20 Mandarin Chinese language program applicants. Applications are forwarded to NCTU, and NCTU distributes the applications to the respective universities for review.

## Step 4: Notification of Acceptance

Each university notifies applicants of the results of their application by early June by email and post.

# **Suspension of the Scholarships**

### Scholarships will be suspended if the conditions set out below are not met:

- 1. Degree Program Scholarship Recipients Academic Performance: Beginning from the second study term/semester in Taiwan, if a recipient fails to achieve a specified minimum academic average of the registered university, the stipend for one month will be suspended in the following semester. Recipients must also meet the minimum credit regulation of the university or the stipend for one month will be suspended in the following semester.
- 2. Chinese Language Program Scholarship Recipients: Attendance Records: With the exception of a serious illness or accident, if a recipient is frequently absent from the registered language courses for 12 or more hours in a single month, the stipend for the following month will be suspended.

# **Regulations and Terms**

- 1. Recipients may only receive the scholarship **ONCE** for each degree program (master's and doctoral) or for the Chinese language program.
- 2. If a recipient fails to arrive in Taiwan by the specified registration date, the scholarship award status and admission will be cancelled.
- 3. If the scholarship recipients graduate, drop-out, being expelled from the institution at which they are registered, violating Taiwan's laws or have their scholarship revoked for any reason, the scholarship offer will be terminated.
- 4. Scholarship recipients are not to simultaneously receive other scholarship offered by the government or educational institutions of the Republic of China (Taiwan).

# Open the gate to the world!

Started as an agricultural college in 1919, NCHU has long served as a cradle of Taiwan's conventional agricultural prowess by providing top notch and innovative agriculturalists throughout its historic growth. The Ministry of Education (MOE) launched in 2006 its five-year 50 billion program — Development Plan for World Class Universities and Research Centers of Excellence. Strong research strengths in the agricultural sciences, life sciences and veterinary medicine, supplemented with promising future research in nanoscience, nanotechnology, industrial technology, as well as in the humanities and social sciences. The University owns four experimental forest stations, veterinary hospital, an agricultural experimental farm and an animal experiment farm, whose teaching and research facilities occupying an area of more than 8,000 hectares. The University has a total of about 750 full-time faculty and about 18,000 students, with the number of graduate students representing 40% of its student population. NCHU recruits the best faculty members to create a stimulating environment for learning and research.

### **English-Taught Programs**

- International Master Program of Agriculture
- International Bachelor Program of Agribusiness
- Graduate Institute of Technology Management (Master's and Ph.D. programs)
- Molecular and Biological Agricultural Science, in cooperation with Academia Sinica

### **Programs**

College of Liberal Arts
College of Agriculture and Natural Resources
College of Science
College of Engineering
College of Life Sciences
College of Veterinary Medicine
College of Management
College of Law and Politics

#### **Chinese Language Program:**

- 10 to 15 students in each class
- 3 different levels of Chinese proficiency
- Free for the first two years for full-time international students and exchange students at NCHU

Scholarships offered by the government: NT\$ 25,000 per month for degree-seeking students.

# **National Yang-Ming University**

# Asia's Leader in Biomedical Research

# **About NYMU**

National Yang-Ming University (NYMU) was founded in 1975 and located in Beitou area, Taipei, Taiwan. With its young age, the university is full of creativity and innovation. There are six schools and twenty-five interdisciplinary research centers in campus. As a research-oriented and medicine-oriented university, NYMU provides students with quality learning environment to cultivate advanced professionals of their interest. For more details please visit our website at www.ym.edu.tw

# **Academic Highlight**

NYMU has developed cutting-edge scientific research in genomic medicine, neuroscience, biophotonic engineering, stem cell, infection and immunity. NYMU was awarded for "Promoting Academic Excellence of Universities" in two research fields, Genome and Brain Research. In addition to university hospital, NYMU also

partners with other hospital systems including Veterans General Hospital and Taipei City Hospital for clinical as well as translational research and medical care training.

# **Funding**

- School of Medicine `School of Life Sciences `School of Biomedical Science and Engineering `School of Dentistry `School of Nursing `School of Humanities and Social Sciences
- Offered over 120 English-taught courses and lectures
- Full-English Ph.D./Master Degrees in International Health Program
- Free Chinese courses for beginners

# **NATIONAL CHIAO TUNG UNIVERSITY**

**NCTU Challenges Tomorrow University** 

## **Engineering a Bright Future**

Reestablished in Hsinchu City in 1958, National Chiao Tung University (NCTU) is located in Hsinchu, the Silicon Valley of Taiwan. As a prestigious comprehensive university providing first-rate education, NCTU cultivates entrepreneurs in high-tech industry and leaders in society as well as collaborates closely with science and technology industries in developing cutting-edge research. Its close ties with the Hsinchu Science Park – where two-thirds of the CEOs and general managers are NCTU alumni – offer excellent job opportunities after graduation.

Surrounded by top research facilities and staffed by distinguished scholars, NCTU offers a wide spectrum of disciplines in its nine colleges, presenting students with excellent opportunities to specialize in their fields of interest. With the complement of state-of-the-art facilities, modern architecture, artistic displays, numerous activities, and abundant resources, students will find their studies at NCTU an enriching experience. We have pleasure in inviting you to be one of them.

# **Outstanding Achievements**

- Engineering ranks 46th world-wide\*
- Computer science ranks 39th world-wide\*
   & 30th world-wide for publications by ESI, 2011
- Leader in semiconductor, photonics, communication, materials science, solar energy, nanotech & biotech
- College of Management accredited by the Association to Advance Collegiate Schools of Business (AACSB)
- MBA program ranks 5th in Asia by Asia Inc.
- \*Shanghai Jiaotong University's Academic Ranking of World Universities in 2011

# **Incubator of Innovators & Entrepreneurs**

- Highest patents output & technology licensing
- Over 500 alumni as CEOs & managers in top high-tech companies (Acer, ASUS, D-Link, TSMC, UMC, etc.)
- Graduates most favored by Taiwanese enterprises

# **Programs**

# 9 Colleges

Electrical & Computer Engineering · Computer Science · Engineering · Science · Biological Science & Technology · Photonics · Management · Humanities & Social Sciences · Hakka Studies

#### Wide-ranging programs

- Over 100 undergraduate & postgraduate programs
- An increasing number of English-taught courses
- All-English graduate degree programs:
  - International Graduate Program in Electrical Engineering & Computer Science (EECS)
  - Global MBA Program (GMBA)
  - Interdisciplinary Neuroscience Doctoral Program
  - Inter-Asia Culture Studies
- Free Chinese courses (for degree students)

# **About Us**

The Chinese Language Center (CLC) at National Chiao Tung University (NCTU) was established in 2005 in compliance with the university's policy of globalization. Our students include international students, exchange students as well as extension program students, who are foreign professionals at the Hsinchu Science Park, non-Chinese teachers in private language schools, overseas ethnic Chinese and others. Courses at multiple levels from beginning to advanced are currently offered. These help learners develop accurate pronunciation and communication skills in Mandarin Chinese in order to cope with daily situations, while offering learners a close-up view of Chinese culture, as well as providing updated information about Taiwan and the Greater China.

# **Features**

- ♦ Take an integrated approach to help students develop the four skills in Chinese.
- ♦ Help students develop listening and speaking abilities by creating simulated situations with audio-visual aids and using speaking cues for effective communication.
- ❖ Provide training in thematic reading and writing, stimulating students to actively use vocabulary and sentence patterns.
- ♦ Use Hanyu pinyin and meaning-rich traditional Chinese characters for instruction.
- → Teach basic Chinese typing and handwriting via computer-aided technology.
- ♦ Offer theme-based courses in business, culture, or news stories for advanced learners.
- ❖ Supplement language instruction with an e-learning platform, enabling classes to be extended without the constraints of time and space.
- ♦ Use a combination of assessment strategies: interactive activities with local students, simulation games, audio-visual recordings of daily communication tasks, and written tests.
- ♦ Offer credits for the students who satisfactorily accomplish the requirements of our credit courses, and award completion certificates to students of non-credit programs.

# **Credit Courses**

For the Fall and Spring semesters, integrated courses at Basic Level, Intermediate Level and High-intermediate Level are offered to improve students' abilities in listening, speaking, reading and writing. Theme-based courses on Taiwan Today, Reading Chinese News, Business Chinese are also offered. The Spring semester starts in mid-February and the Fall semester in mid-September. Each semester lasts 18 weeks. There are three or four class-hours per week for different courses.

For the Summer session, both language courses and cultural activities are offered. Language courses include beginner and intermediate levels, while cultural activities include information about Chinese society, history, festival, art, medicine, martial art, etc. The first Summer session starts in early July and the second in early August. The duration of each Summer session is five to six weeks. There are a total of 54 class-hours for each Summer session, plus four culture activities of two hours each, which are held once a week.

Special One-On-One courses are available to meet individual needs or requirements.

# **Faculty and Facilities**

All the instructors are professionally qualified for Teaching Chinese as a Second Language (TCSL) and have more than three years of teaching experience. Volunteer teachers with abundant teaching experience, some with the Certificate of Proficiency for TCSL awarded by the Ministry of Education, are ready to provide additional tutorials, helping students improve their pronunciation in particular. In addition, we provide an audio-visual self-study center and a library with an enormous number of books.
